

Splendid Sessions in the DC Snowpark Kitzbühel

Since the official opening of the DC Snowpark Kitzbühel two weeks ago, this place has been jumping! At the first session shootout in the beginning of January, the park was inaugurated in style! The park crew is working day and night on the setup and thanks to the masses of fresh snow which enwrap the Kitzbühler Alps with beaming white these days, all freestylers can look forward to a soon completed DC Snowpark Kitzbühel!

Also in the year 2012 the DC Snowpark Kitzbühel at the Pass Thrun treats all freestyle fans with a fantastic park setup, for riders of every level. At the first session shooting in the beginning of January, the DC riders Miri Hoffmann, Maxi Preisinger and Felix Schrett as well as Austrian Freeski Champ Patrick Hollaus and crew demonstrated impressively what you can currently shred at the Hanglalm.

Here is the **current park setup** of the DC Snowpark Kitzbühel:

- 2 Curved Boxes 9m
- 1 Down Rail 8m
- 1 Elephant Butter-Box 6m
- 2 Flat Butter-Boxes 6m
- 1 Rainbow Butter-Box 3m
- 1 Up/Down Butter-Box 3m
- 1 Kink Rail 5m
- 2 Picknicker Jibs 6m
- 1 Shred Jib 3m
- 4 Kicker (Double Kicker Line): 2m, 4m, 5m und 7m

Due to the masses of fresh powder, which have been falling during the last days along the Kitzbühler Alps, the grooming and shaping works in the DC Snowpark Kitzbühel are currently running at full speed in order to present a complete park setup to all shredheads shortly.
